

Are You a Seed Saver?

Borrow

Visit your Seed Library and select the seeds you plan to grow.

Grow

Grow beautiful and healthy plants to share with friends and family.

Return

Learn to save seeds, then bring some back to your Seed Library.

What is a Seed Library?

WSU JCMG Seed Library is a seed exchange kiosk, stocked with small, pre-packaged quantities of free vegetable seeds and other educational materials related to gardening, growing and seed-saving.

How it WORKS:

Seeds are borrowed, grown and some are returned. Seeds that are returned to the Seed Library donation box will be sorted and labeled by volunteers for future borrowers.

Why save seeds?

Saving seeds helps to preserve genetic diversity, flavor, nutrition and unique varieties. Returning seeds at the end of the growing season will encourage seed strains that are adapted to local conditions.

Where is the Seed Library?

The Seed Library is located at WSU Jefferson County Extension, Kivley Center, 121 Oak Bay Road, Port Hadlock, WA 98339.
